Memories for a Lifetime

Siringit is a small collection of privately owned bespoke safari homes in Northern Tanzania. We pride ourselves to value your need for seclusion and exclusivity. Our properties offer unrivalled immersive experiences, where we encourage you to connect with nature, in the remote tranquil wilderness of Tanzania.

When we travel, we allow ourselves to surrender to the unknown. On Safari we become immersed in the powerful awe of limitless landscapes, raw wildlife and vibrant cultures. A sense of peace is instilled in us as we venture into the untamed spaces of vast wilderness and wildlife.

There is always something fascinating to see on a game drive: a rainbow-coloured Lilac Breasted Roller, your first sighting of a herd of Elephants migrating to the Maasai marshes for their lunchtime thirst quench, a pride of Lions or the twitching tail of a Leopard lazing in a Sausage Tree. You will find yourselves captivated, reawakened, breathing in the natural scents and sounds of an untamed wilderness.

Investing in Education

At Siringit we believe that your memories should matter, that our collective travel print should be conscious to benefit communities in Tanzania and inspire opportunity for economic empowerment.

We value community and our respect for people and nature originates in the roots of Tanzanian culture.

We believe that education is the key to empowering communities and empowering people out of poverty. Every child has a right to education. It is the water that will make a child's dream a reality in the future. By investing in education, creating a safe inspiring environment for children to learn about wildlife and conservation, and providing children with a basic right to a quality education at the Baraa Primary School in Arusha sponsored by iThemba, we provide the nourishment for the trees of the future to grow.

Our properties offer unrivalled immersive experiences, where we encourage you to connect with nature, in the remote tranquil wilderness of Tanzania.

The Maasai pastoralists grazed their cattle in the “endless plains”, what we now called the Serengeti National Park, for over 200 years before the first explorer, Oscar Baumann, arrived in 1892. The name Serengeti is derived from the Maasai word, “Siringet”, which means “the place where the land runs forever.”
